IRS Announces 2009 Standard Mileage Rates

The Internal Revenue Service issued the 2009 optional standard mileage rates used to calculate the deductible costs of operating an automobile for business, charitable, medical or moving purposes. As of Jan. 1, 2009, the standard mileage rates for the use of a car (also vans, pickups or panel trucks) will be: 55 cents per mile for business miles driven, 24 cents per mile driven for medical or moving purposes, 14 cents per mile driven in service of charitable organizations. The new rates for business, medical and moving purposes are slightly lower than rates for the second half of 2008 that were raised by a special adjustment mid-year in response to a spike in gasoline prices. The rate for charitable purposes is set by law and is unchanged from 2008.

Joe Ashkin- President/CEO

Joe is celebrating his 27th year
with Falcon

He has been involved almost from day one; first as an Account Manager all the way to his present position at the helm of a dynamic and highly competitive company known throughout the Mid-Atlantic as a major player in the Rush, Routed and Overnight delivery industry. As evidenced by the longevity of many of FXT's largest customers, quality service and solid business relationships are the cornerstone of an organically grown, methodically built transportation company.

Falcon Express is a SmartCEO Summit Sponsor and our ad can be seen in their Baltimore & Washington monthly magazine.
